

European Association for  
Astronomy Education

## General Assembly July 15<sup>th</sup>, 2016

### Proposal of Honorary Memberships

The EAAE has now done a twenty-year journey, from a time where no country in Europe had any Astronomy Education, until a time where many organizations have appeared following EAAE's ideas.

On the year of its 20th Anniversary the EAAE has the duty to recognize the people that have built the way. These members were always active and remain active, though some of them are now thinking in retiring. They were the strength of EAAE along the whole 20 years. Therefore, I propose the following members to become Honorary Members of the EAAE

Ederlinda Viñuales  
Veselka Radeva  
Roland Boninsegna  
Irma Hannula  
Sakari Ekko  
Antonio Acedo del Olmo  
Francis Berthomieu  
Rupert Genseberger  
Leonarda Fucili  
Alan Pickwick (Honorary Treasurer)  
Cristina Palici di Suni (Honorary Secretary)

Loulé, June 2016
